

>>> CHIP SYSTEM

AESTHETIC AND VERSATILE

The beautiful and durable solution – great for a wide variety of applications.

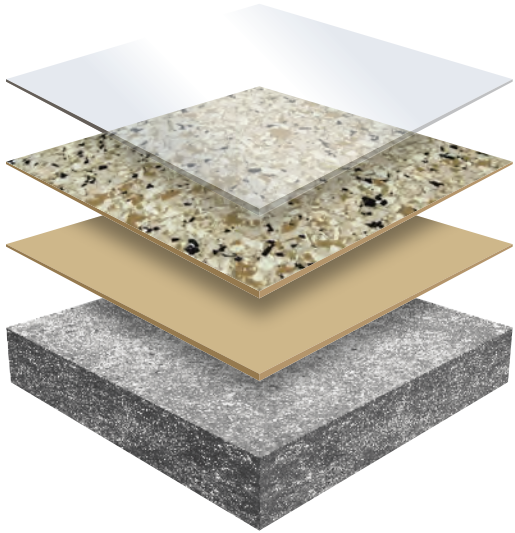

Penntek's Chip System provides a granite look with an orange peel texture, which makes it a great floor for many applications. Its durability and chemical resistance are important, especially for high traffic areas and commercial applications.

*DEVELOPED BY CONTRACTORS,
FOR CONTRACTORS*

SINGLE DAY INSTALL

The Chip System uses a 100% solids polyurea with unique technology that offers extreme adhesion, rapid cure, and maximum broadcast times. This system also offers a quick return to service, which leads to less downtime for customers. Long pot life and extended open broadcast acceptance times help the installers to complete a successful installation. The vinyl chips come in a variety of blends to mix and match with your choice of basecoat colors. This is one of the most popular systems because of its wide variety of applications.

HOW IT'S MADE

- PT 300 - Polyaspartic Polyurea Topcoat
- Flakes - (Blend of Choice)
- PB 200 - Polyurea Basecoat for Broadcast System

ADVANTAGES
